Subject: Interlocal Contract #2017-CPU-08 between Clark Public Utilities and Clark County Limited Funds Transfer

Mike and John,

Per Interlocal Contract #2017-CPU-08 between Clark Public Utilities (CPU) and Clark County and by this written notice, CPU has approved additional limited funds in the amount of $120,000 for reimbursement by invoice which may be used for:

- $45,000 - emergency heat repair and replacement in electrically heated homes;
- $45,000 - weatherization related repairs in electrically heated homes;
- $30,000 - miscellaneous electric energy/ water related repairs regardless of heat source.

The timing of this CPU approved Tax Credit use is typically on or after July 1st with funds to be expended by June 30th of the following year. This early transfer was requested by Clark County staff due to an identified immediate need of income-qualified citizens in the Clark County community. Since the utility has received the Tax Credit, CPU is providing this written notice for these limited funds to be available between June 11, 2018 and June 30, 2019.

No County Signature is required and all contract terms remain the same. Please let me know if you have questions. Thank you.
