

Clark County Public Works

Bid Inquiry Log

Last Update: May 7, 2024

Responses will be posted on the project's "Bid Inquiry Log", which will be updated twice daily, at noon and 6:00 PM. The Bid Inquiry log will display all questions and answers to the questions that have accumulated by the posting time. Questions too late to be answered as of that posting will remain unanswered. The questions and answers posted on the Bid Inquiry Log at that time will be considered part of the contract and ranked as an Addendum with respect to order of precedence under Section 1-04.2 of the Standard Specification.

Project CRP #:	321022 (0002066)
Title:	NE 130th Avenue Pedestrian Improvements
Engineer In Charge:	Bart Arthur

Date: April 24, 2024

Question #1: Is there perhaps a different method for obtaining the plans? I have attempted to save them from the BXWA website & no matter what format I use, they're too large.

Reference: none

Answer: No, contact Builders Exchange for access.

Date: 5/3/24

Question #2: In the plans it calls out for Eltech RRFB and Speed Radar Signs. We are a local company that stock, service and supply Tapco products. Could we bid as an approved equal? I can send you information on product if need be.

Reference: Plans

Answer: No, The RRFB and School Zone Flashers (there are no radar signs) on this project shall be supplied as ELTEC brand. The ELTEC brand has been used by the county for many years. Proprietary use of this product is beneficial for maintenance and troubleshooting by the signal technicians. Response to any damage and its repair is reduced by using an existing system which is in place for the county. The use of these proprietary materials is also needed to reduce material storage and training.
