MEETING AGENDA

Topic: Code Enforcement

Speaker will be newly appointed Clark County Community Development Director, Mitch Nickolds

“We believe the best approach to enforcing local codes is voluntary compliance. We work with residents to resolve violations before enforcement actions are necessary.”

Green Bag Project is Underway! Our neighborhood association participation is well underway in the Clark Neighbors Food Project, also known as the Green Bag project. We have three separate groups, each with 5 or 6 members, who donate one item per week. Every two months the food is collected.

On Saturday, April 13, together we collected over 170 lbs! The food will go to the pantry at Orchard FISH. Food will also be offered to the Silver Star Resource Community Center.

If you would like to join a group, send a note to sunnysidenava@yahoo.com, and we will get you started and assign you to a group.

78th Heritage Farm Master Plan is being updated by Clark County Public Works. Clark County Parks took over administration of the farm in May 2016. The farm is considered a valuable county asset with many educational programs. Some of you may have participated in Washington State Extension activities there.

For a complete overview of the farm’s update, go to <https://www.clark.wa.gov/public-works/heritage-farm-update>.

Have an interest in surface mining in Clark County? Clark County is providing an online survey to receive feedback on prioritizing surface mining impacts and resolutions. Survey is available at: <https://www.surveymonkey.com/r/Quarries-2019> The survey will close on Friday, May 10 and takes about 3 minutes.
