Cable Television

Department Summary

The County's responsibilities for cable television franchise administration, as well as public affairs and government programming, are carried out by the Clark/Vancouver Cable Office (CVTV), a City-County joint venture. The City of Vancouver is the fiscal agent for the office, so the County budget reflects only the payment to the City for cable services. The Clark/Vancouver Cable Office provides full service video production facilities and regularly produces programs for the County. Examples include the monthly "Clark County Closeup" program, a 30-minute magazine format program on County services and issues; and "Clark County Focus," a 30-minute monthly studio discussion program. This office also operates a head-end playback facility.

ESA

Program Summary

The Clark County ESA Program has completed work on the Habitat Conservation Ordinance, the Lower Columbia Salmon Recovery Plan, and the Water Resource Inventory Area Plan. These plans embodied the ESA program goals of working with others through policy, education, and conservation to recover threatened and endangered species. Without coordinated implementation, these plans and ordinances won't produce desired environmental outcomes. The mission of the program, as expressed in the budget, is now to ensure plan and ordinance implementation in a way that supports salmon recovery.

GIS Storefront

Program Summary

The GIS Storefront is responsible for creating and selling standardized and custom maps to County departments and the public. The Storefront is a fee-for-service provided as a public service to the County. The sale of quarter-section maps and the road atlas have been the biggest source of revenue in the past. It is anticipated that the sale of ClarkView and other software developed by the GIS department, and the sale of the digital data to support the software will significantly increase the revenues generated by the GIS Storefront.

The GIS Storefront plays an important role in Clark County's public perception. The ClarkView product presents the taxpayer with a wealth of accurate, useful information in an easy to understand format. The Clark County Atlas, Road Map, and Bike Map are recognized as high quality products throughout the region. The Storefront continues to develop in response to requests for services and data products utilizing the GIS database.
