- Amy Arnold If you have questions, please type them into the chat to be read into the room.
- Gregory Shaw Given staff’s refusal to address any of the issues raised by members, specifically the reporting requirement for “all communications” and the failure to give the group any role in drafting a report. I also agree with Ann and Allen’s comments. NO.
- There was no Parks and Rec conveyance it was done under 10 USC 2694a as a Conservation Conveyance.
- Amy Arnold To the guest with your hand raised, please type your question or comment into the chat.
- Lou M (Guest) What is the harm in letting the public speak like everyone else and why muzzle advisory group members from speaking on Camp Bonneville? This is crazy and why won’t staff explain themselves? This is not normal.
- Gregory Shaw Staff wants us to endorse whatever “report” they write. Members can only ask questions. Your insistence on a Parks conveyance is a clear example on how staff will not even acknowledge when they are using incorrect data on the most basic question.
- This is not about fonts, it is about allowing the public to have actual input to the evaluation of overall site safety at Camp Bonneville. The proposed charter severely restricts any public role.
- Lou M (Guest) Who gets to see the public comments? CAG members? The public? Or just staff? All other public comments in other county processes are provided transparently to the public. How do we know public comment will be addressed throughout the process so they can participate, follow, and understand?
- Gregory Shaw Kathleen just emailed me that she only responded to Ann’s Charter email. The rest of us did not apparently get it.

FYI: Park Hun Saek is no longer employed by Ecology. Just in.

The conveyance totally affects the cleanup. Cleanup was based on the type of conveyance.

Lou M (Guest) If you're only going to provide audio to the public then you should ensure comments by CAG members online get read into the records.

Gregory Shaw Information about the group's activities might be reportable. But, comments on other aspects of Camp Bonneville (range, firebreak...) should not be limited.

Is the group reviewing the data and building a report, or only making comments on docs presented by staff for them to compile a report to which we have no input. So far no response to materials to staff that contradict what they are saying.

Lou M (Guest) Is there any other group, board, or commission in Clark County that is barred from speaking with the media? Just like there was no other where audio or video was recorded?

*member of a group.

Amy Arnold Thank you for attending. If you have questions or comments, feel free to email us at campbonneville@clark.wa.gov
