County seeks community needs survey responses from residents

Vancouver, WA – Clark County Community Services is asking residents who are low-income to complete a survey about their family's needs. The survey, which can be completed online or on paper, will take approximately 15 minutes. It is strictly confidential.

The survey will be available from Nov. 1 through Jan. 31.

An online version is available at www.surveymonkey.com/r/2020CNANeedsSurvey in English, Spanish, Russian and Vietnamese.

Paper copies in English, Spanish, Russian, Vietnamese and Chuukese are available from human services providers such as agencies that offer housing, food, clothing, health services and employment assistance.

If you are unable to obtain a paper copy from a service provider, please contact Rebecca Royce at (546) 397-7863 or rebecca.royce@clark.wa.gov.

Community Services is required to conduct a needs survey every three years. The results are used to help prioritize which programs and services will be funded in our community with Community Service Block Grant awards.
