Background

Clark County Public Work recommends reclassifying several streets to provide bicycle infrastructure where parking is underutilized.

Existing conditions:

- Direct residential access to parking
- Close proximity to existing parks and amenities
- Connections to existing bicycle routes

Proposal improves functionality and safety for motorist and bicyclists.

Consistent with 2010 Clark County Bicycle and Pedestrian Master Plan

GIS Story Map will provide maps and information to learn about the proposed changes <https://arcg.is/1WTOeG>
