ZOOM Meeting

Tips and tricks

1. **Your name.** Type in your full name when you enter the ZOOM meeting. Since we do not all know each other yet, this will help us facilitate discussion.
2. **Tools.** Most of the tools you need will appear when you move your cursor to the bottom of the screen.
3. **Audio/video.** Once the ZOOM meeting starts, **please mute yourself** unless you are speaking to the group. This helps keep background noise to a minimum. Please silence your cell phone unless using it for the meeting. If you have a webcam, please use it! As we rely on these virtual avenues of communication, being able to see one another helps us feel connected.
4. **Questions.** The “raise hand” function is useful if you have a question. You can find this tool by clicking on the Participant icon.
5. **Chat.** The Chat function is open! Please use it to share information, but raising your hand (real or virtual) or speaking up is preferred to get the attention of the facilitator.

To discuss any special accommodations for meeting attendance and participation, please contact Steve Faust (503) 946-9365 x207 or steve.faust@3j-consulting.com.
