

## CLARK COUNTY

### RFP #813

### PUBLIC HEALTH LANGUAGE SERVICES

### QUESTIONS and ANSWERS

UPDATED: DECEMBER 9, 2021

	QUESTION	ANSWER
1.	Would you consider proposals for one or two services only?	No.
2.	Would you provide us the prices for current or previous incumbent(s)?	Please see the current state contracts for translation and interpreter services at <a href="https://apps.des.wa.gov/DESContracts/">https://apps.des.wa.gov/DESContracts/</a> .
3.	Which are the most common languages that Clark County needs?	Please see Clark County's community demographics on the InfoMap at <a href="https://clark.wa.gov/public-health/demographics-and-community-data">https://clark.wa.gov/public-health/demographics-and-community-data</a>
4.	Are you looking for sign language interpreting services in this RFP?	Yes, all languages including sign language.
5.	The Proposal Content requested will not fully demonstrate a company's capabilities in 5 pages, as required by Section IIB, paragraph 2. While we fully understand the desire to minimize the number of pages to be reviewed by the evaluation committee, we respectfully request that the page count be increased to at least 10 pages so that we can fully demonstrate our processes and capabilities. If that is not acceptable, can we submit exhibits that more fully describe a process that will not be included in the page count?	Please feel free to provide exhibits.
