

**Winter City of Vancouver Updates: Nov. 2021 – Feb. 2022**

- Vancouver manages a regional leaves coupon program for residents each fall (Oct - Dec 2022). Outcomes from Fall Leaves Coupon program were 16,582 yards of leaves composted/diverted, disposal cost was \$184,586.21 and 6,485 coupons were redeemed. Breakdown below by inside/outside Vancouver city limits.

	Coupons	Yards
Vancouver	2,241	5,870
Clark County	4,244	10,712
Total	6,485	16,582

- In 2022, Vancouver and Waste Connections are continuing the offer a free bulky item pick up benefit to Vancouver residents with active garbage service. At any time in the calendar year, residents can request to have up to 5 bulky items picked up at the curb for no cost, available as a one-time benefit. New this year will be this service request can be made on demand (anytime throughout the calendar year), rather than only on pre-scheduled / pre-set dates. This pilot service was first offered to residents in 2020 due to pandemic impacts to neighborhood cleanup events intended to help residents manage bulky items that are too larger to fit in their garbage carts. This service is not available for multifamily accounts (i.e. residents with services managed by a property owner in a condo/apartment style housing).
- The RecycleRight app now has an expanded feature available to Ridgefield, Washougal, UGA Clark County, and coming soon in Vancouver to allow households to request bulky item collection through the mobile app / web tool. Promotions/outreach about this request feature are anticipated in spring and summer 2022.
