DIRECTOR'S REPORT

COVID-19 UPDATE

- Statewide COVID-19 case rate is beginning to decrease after the latest wave peaked in mid-May. Hospitalization rate remains high.
- The statewide reproductive number, which tells us the average number of new people that one person with COVID-19 infects, is about 1.1
- Clark County COVID-19 case rate is beginning to decrease after the latest wave peaked in mid-May.
- Clark County COVID-19 hospitalization rate has fluctuated recently but remains higher than the state rate.
- Rates by vaccination status: data has consistently shown that case, hospitalization, and death rates among all age groups are highest among people who are unvaccinated.
- According to CDC data, nationwide since the pandemic began:
- COVID-19 vaccines are now recommended for children as young as 6 months old.
- COVID-19 vaccines and booster doses are also recommended for everyone 5 years and older.
