Please encourage the city of Vancouver to not allow outside habitation of the Unhoused within the Critical areas identified by the Washington state growth management such as wetlands frequently flooded areas, geologic, hazard areas, fish and wildlife, habitat, areas, etc.

Here is a link to an oil spill that occurred in a homeless camp that was in an area that became flooded along burnt bridge creek.

Link to photos <https://photos.app.goo.gl/4YyToXG28f7YiyZa7>

It does not matter to the city of Vancouver. They are willing to pollute and destroy burnt Bridge Creek in order to allow outside habitation of the homeless, which, in most cases are very destructive to the environment, our surface and ground water and trees.

Please see the attached document

Thanks Peter
