RE: Support for Clean Water Division's 2025-2030 Capital Plan

Dear Councilors:

The Clark County Clean Water Commission's mission is to work with our community and leadership to improve and protect Clark County watersheds from the impacts of stormwater runoff, point and non-point pollution sources, and other risks to the ecological integrity and quality of our surface water resources.

The Clean Water Commission strives to achieve healthy watersheds throughout Clark County and to ensure the integrity of the water cycle, as defined by commonly accepted best standards. With our mission in mind, at our October 2, 2024, meeting the Commission voted to strongly support the Clark County Clean Water Division's 2025-2030 Stormwater Capital Plan.

We encourage you to approve this plan since it will have significant and lasting impacts on how Clark County's stormwater is treated, and its harmful effects better mitigated. The Commission appreciates your ongoing support of stormwater capital projects and watershed improvement efforts for the benefit of Clark County residents.

Sincerely,

Ted Gathe, Chair
Clark County Clean Water Commission
