Clark County Clean Water Commission

2024 Annual Report & 2025 Action Plan

Ted Gathe, Chair & Glen DeWillie, Vice Chair

June 4, 2025

Clark County Clean Water Commission

The Clean Water Commission is a nine-member volunteer citizen board serving in an advisory capacity to the Clark County Council on issues related to the Clean Water Division. The Clean Water Commission works with staff to review the program, implement stormwater treatment improvements, support water quality monitoring efforts, and enhance public education and outreach.

Mission, Vision and Values

Mission

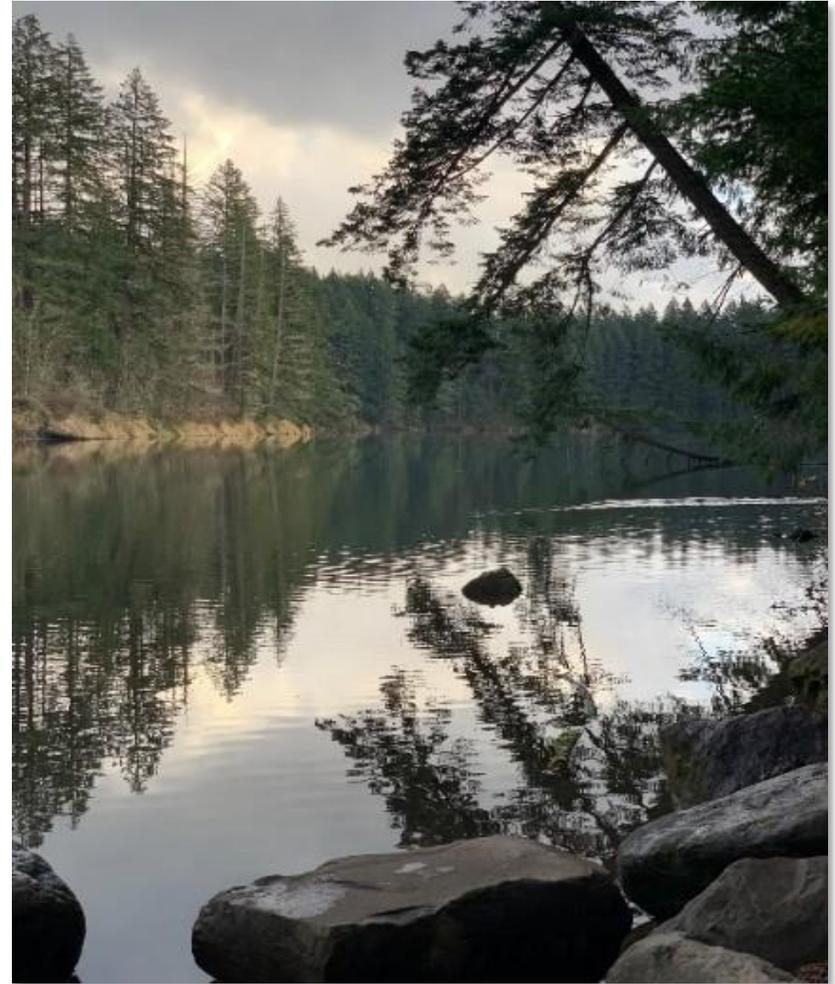

The Clean Water Commission's mission is to collaborate with Clark County residents, government entities, businesses, and non-profit organizations to enhance water quality, improve flow, and protect the ecological integrity of our watersheds.

Vision

A Clark County with self-sustaining and healthy watersheds that benefit the county's human communities, wildlife, and environment.

Core Values

- Stewardship
- Cooperation
- Transparency

2024 Challenges

2024 Challenges

- Significant turnover on commission membership and leadership.
 - Most tenured commissioner has less than 3 years.
- Need better ways to reach highly impacted populations.
- Future rate increases
 - Maintain focus on 2024 rate study assumptions and adapt plans as implemented.

2025 CWC Workplan

2025 CWC Workplan – Establishing Workgroups

Priorities:

1. Rate study implementation support.
2. “What’s the Point?” Nonpoint Source Pollution Symposium on Oct. 28.
3. Stormwater Management Action Plan (SMAP).
4. Implementing climate change element in Comp Plan.
5. Community engagement and inclusion.
6. Collaboration with other boards and commissions.

Recommendations

Clean Water Commission Recommendations

- More collaboration across County departments and neighboring jurisdictions on:
 - Policy
 - Planning
 - Projects
- Evaluate and address impacts of urbanization and land use change on watersheds.
- Assess cumulative impact of individual projects at watershed level.
- Focus on nonpoint source pollution, nutrient reduction, and lake management.

Council Priorities for 2025
