Certified Erosion and Sediment Control Lead (CESCL)

v. 1/7/16

Working together. Securing your safety. Protecting your investment.

Purpose and Description

The project proponent designates at least one person as the responsible representative in charge of erosion and sediment control (ESC), and water quality protection. The designated person shall be the Certified Erosion and Sediment Control Lead (CESCL) who is responsible for ensuring compliance with all local, state, and federal erosion and sediment control and water quality requirements.

Conditions of Use

The CESCL shall:

- Have a current certificate proving attendance in an erosion and sediment control training course that meets the minimum ESC training and certification requirements established by Ecology (see details below). Ecology will maintain a list of ESC training and certification providers at: www.ecy.wa.gov/programs/wq/stormwater/cescl.html.

OR

- Be a Certified Professional in Erosion and Sediment Control (CPESC); for additional information go to: www.cpesc.net.

Specifications

- The CESCL shall have authority to act on behalf of the contractor or developer and shall be available, or on-call, 24 hours per day throughout the period of construction.
- Duties and responsibilities of the CESCL shall include, but are not limited to the following:
- Maintaining the erosion control plan and the erosion control log on site.
- Directing BMP installation, inspection, maintenance, modification, and removal.
- Keeping daily logs, and inspection reports.
