**BACKGROUND**

On September 25, 2019, the Council enacted Interim Ordinance No. 2019-09-13 to correct a scrivener's error in the Columbia River Gorge National Scenic Area Districts CCC 40.240.440(H). Prior to the enactment of the Interim Ordinance, CCC 40.240.440(H) stated that the development and production of mineral and geothermal resources are required to follow a Type IV (legislative) process. As set forth in the Interim Ordinance, the review procedure should be a Type III (quasi-judicial) process as provided for elsewhere in the code.

The Council is required to hold a duly advertised public hearing within 60 days in compliance with state law. The purpose of the Interim Ordinance No. 2019-09-13 was to correct a scrivener's error in CCC 40.240.440(H). This would continue that correction for a six-month period, which would allow additional time for public review prior to the Council's consideration and potential adoption of a final ordinance.

Council has several options with regard to the proposed extension of the interim ordinance, including:

Option 1. Take no action, which would allow the interim ordinance to expire on November 24, 2019, 60 days after its passage.

Option 2. Extend the interim ordinance by six months to May 2020.

Option 3. Repeal the Interim Ordinance No. 2019-09-13.

Staff is recommends that council select Option 2 to allow for additional public review.
