[Exhibit B - Comments.pdf](#)
[Exhibit C - Proposed Amendments - May 2020.pdf](#)

Greetings Chair Quiring,

I am writing today regarding the Shoreline Master Program Periodic Review project. Shortly before the COVID-19 stay at home order went into effect, Community Planning had requested a conversation with Council to provide an update on the Shoreline Master Program (SMP) Periodic Review project. In lieu of an in-person discussion, attached please find a written update on this project and a proposal for next steps.

There are four items attached for your consideration, as follows:

- **Project update** memo
- Appendix A: **Summary of comments** received during a 30-day public comment period held in early 2020
- Appendix B: Copies of the ten (10) **comments** received
- Appendix C: Current **draft proposed amendments**. There are no major policy changes in the proposal. Amendments in response to comments are highlighted; many address feedback from Ecology to bring the SMP into compliance with updated critical areas requirements.

Please let Oliver and me know if you have any questions.

Thank you,
Jenna

Good afternoon Councilor Quiring,

We are writing to follow-up on the below email to see if you have any questions for us. Please let us know if you do. We know you are very busy with COVID-19 matters.

Regards,
Jenna

Hi Councilor Lentz,

Thanks for your note.

We are fine waiting to hear your feedback as part of a future work session with Council. We plan to inquire about those items at that time (hopefully sometime later this year, but timing is a bit uncertain at this point). Logistically, we think it could work to add any of the policy items of Council interest to future work programs rather than packaging as part of this periodic review. However, please let us know if you have any concerns with that approach.

Regards,
Jenna

Hi Jenna-

So sorry for my delay on this. I don't have specific questions but I do have a general one -- with the items that required council input, is that waiting for a council session to discuss, or do you want input now? If now, please say the word and I'll respond (more promptly). Thanks!

Thank you Jenna -

No real questions. My only comment is that I would not be supportive of anything that moves us toward "net ecological gain" as a standard.

Best,

John
