**CLARK COUNTY  
STAFF REPORT**

**DEPARTMENT:** Budget Office  
**DATE:** April 16, 2013  
**REQUEST:** Set a public hearing in two weeks for the purpose of discussing the attached 2013 Omnibus supplemental appropriation.  
**CHECK ONE:**  Consent  Routine

---

**BACKGROUND**

Attached is the 2013 Omnibus supplemental appropriation. Two weeks are required to advertise the changes to the 2013/2014 Adopted Budget. This will allow appropriate time to notify the citizens of the proposed change to the 2013/2014 Budget. If past practices hold, the public hearing will be Tuesday, April 30, 2013.

**BUDGET IMPLICATIONS**

Approval of this staff report does not change the budget. The attached staff report details the individual budget requests that will be presented on April 30, 2013 for a total decrease in expenditures of \$17,741,357. Revenue decreases total \$11,041,286 for a net increase in fund balance of \$6,700,071.

**POLICY IMPLICATIONS / COMMUNITY OUTREACH**

The purpose of this staff report is to set a public hearing in two weeks to allow citizens time to consider the requests of Clark County departments and participate in the decision making of their local government.

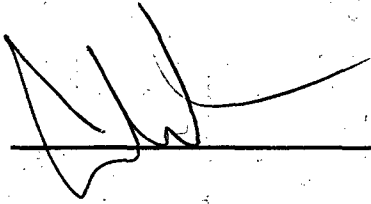

**ACTION REQUESTED**

Set a public hearing in three weeks for the purpose of discussing the attached 2013 Omnibus supplemental.

## CLARK COUNTY STAFF REPORT

**DEPARTMENT:** Office of Budget and Information Services  
**DATE:** April 30, 2013  
**REQUEST:** Approve the 2013 Omnibus supplemental request.  
**CHECK ONE:**  Consent  Routine

### BACKGROUND:

Staff recommends the Board of County Commissioners approve the following adjustments to the 2013/2014 Adopted Biennial Budget. The adjustments are not limited to specific funds or departments, but reflect changes county-wide. Following are brief descriptions of the requested revisions. An attached exhibit reflects the detail of budget coding.

**Item 1 Assessor** **Assessor's Office - Online Appeals System** **\$0**

2804

The supplemental budget request is to transfer \$39,537 from the Assessor's Office to Fund 3194 Technology Reserve Fund for the final payment to purchase an Online Appeals System. The system will allow the taxpayer to submit an appeal through a secure portal on Clark County's website. The system will not only capture the appeals information, it will also provide a workflow which will notify the Board of Equalization and the Assessor's Office of the appeal. The system will provide the taxpayer with the ability to attach supporting documentation and track the progress of their appeal. The first part of the system purchase was in the 2012 Final Supplemental as a transfer of \$65,000 from Assessor's Office to Fund 3194 with a notation at that time that the final \$39,537 would be transferred as an adjustment in the 2013/14 budget.

**Item 2 Assessor** **Changes to Assessor's budgeted FTE** **\$1,583**

2803

On March 12, 2013 the Board of County Commissioner's authorized staffing revisions as requested by the Assessor's Office. Three Office Assistant II positions were deleted; three Office Assistant III positions were added, and the Program Coordinator I position (AGS0072) was reduced from 0.50 FTE to 0.30 FTE. The Omnibus Supplemental Budget action is to reduce the Assessor's total staffing by 0.20 FTE and apply a budget reduction of \$1,583.

**Item 5 Budget Office**

**Fund 1007 GIS Fund close out**

**\$0**

2807

As of January 1 2013, the functions of Fund 1007-Geographical Information System (GIS) Fund were transferred to the General Fund. The unspent balance remaining in the GIS Fund for the period ended December 31, 2012 is estimated to be \$889,452. The requested budget adjustment will transfer the GIS Fund balance to the General Fund in accordance with accounting rules. The General Fund will receive a one-time transfer of \$889,452 from the GIS Fund.

**Item 7 Clerk**

**Add Judicial Proceeding Specialist**

**(\$ 110,411)**

2802

In March 2013 the Board of County Commissioners approved a staff report authorizing the addition of 1.00 FTE Judicial Proceeding Specialist, to attend to the court hearings generated by the third Court Commissioner approved by the Board on February 19, 2013. The budget adjustment is for salary and benefits related to the addition of a Judicial Proceeding Specialist in order to provide a clerk in court during court proceedings. The Clerk's Office is not requesting additional funding for office supplies or telephones.

**Conservation Futures Stewardship Expense Adjustment**

**\$295,106**

2774

A maximum of 15% of the prior year's Conservation Futures levy is available for stewardship expenses such as maintenance and operations on Conservation Futures properties. The collected levy projections for 13/14 are less than what was anticipated in the adopted budget. This request adjusts down the budget authority to match the anticipated collected levy.

**General Fund Revenue Correction**

**(\$ 364,385)**

2773

Two general fund Natural Resource Specialist positions were eliminated from Environmental Services in 2012. These positions were primarily paid for through billable work to other county departments and permit fee activities. The revenue associated with these positions was not eliminated in the 2013/2014 adopted budget. This request reduces General Fund revenues by the estimated biennial salary and benefit costs of these two positions.

**Purchase Tractor for Camp Bonneville**

**(\$ 65,106)**

2754

This equipment will be used for three separate activities at Camp Bonneville. Public Works is responsible for the maintenance of 46 miles of roads and trails, 11 miles of perimeter fence and all infrastructures. The Environmental Services forester constructs and maintains logging roads and disposes of logging debris. The Environmental Services Vegetation Management staff controls invasive plant species and reseeds land disturbed by both munitions clearance activities and logging operations. The Kubota tractor will be used for most of the work currently performed with a backhoe and grader that are approximately 40 years old. Most roads at Camp Bonneville are gravel. Maintenance with the Kubota will save money for graveling the roads for both logging and access for fire fighters. Vegetation Management will use the equipment with a mounted sprayer for noxious weed control, providing a safer and more stable platform for difficult terrain. Initial cost will be approximately \$48,000 and the equipment repair and replacement (ER&R) component will be \$8,553 per year.

**Solid Waste Fund Salary/Benefits Correction**

**(\$ 172,258)**

2772

Due to a system error, salary and benefits budget was not loaded for one position in Solid Waste fund 4014. This is not an increase in headcount, simply a correction to add salary and benefits budget for a currently filled position.

**Phone System Modernization Pilot Project**

**(\$ 42,125)**

2768

Description: This request is for budget to implement a Voice Over Internet Protocol (VOIP) pilot program.

Justification: Clark County uses an old style phone system which relies on separate phone lines. More and more governments and businesses are migrating to VOIP phone system which operate using the county data network. Clark County will eventually need to migrate towards VOIP. The budget will be used to migrate outlying county activities to VOIP as a pilot program. These outlying areas are the 179th Safety Complex, Event Center/Fairgrounds, Vegetation Management, Central Precinct, PW 149th Maintenance Site, PW 78th Street Operations Center, Corrections Mabry site, WSU Extension at 78th Street Heritage Farm and the Salmon Creek Wastewater Treatment Plant. By converting to VOIP we will be able to stop using eight T1 lines which cost about \$2,400 per month. Payback on this project is about 3.75 years. Non-general fund departments will cover their own conversion costs.

Outcome: This budget will enable the county to begin its migration to VOIP phones.

**Dolle Bldg Boilers-Major Maintenance Fund**

**(\$ 23,000)**

2764

Description: This request is for budget to replace a failed and obsolete boiler in the Dolle Building.

Justification: The Dolle Building has two Aerco heating boilers that have been phased out of the industry. The controls and replacement parts are no longer supported or manufactured. In addition to the lack of support for these boilers we have experienced great difficulties with the labor intensive maintenance and component failure such as the heat exchangers. Each boiler has a copper heat exchanger that is quite elaborate. These heat exchangers are difficult to maintain and are easily plugged. The heat exchangers are susceptible to leaks in various places and have randomly done so during the heating season. We would like to replace the failed boiler with a new high efficiency natural gas boiler (Hydro Therm Lo-Nox). Replacing the boilers will save utility budget and will reduce our maintenance costs significantly (one failed heat exchanger cost us \$12,000 to replace.)

Outcome: This budget will enable the county to replace a failed obsolete boiler with new a high efficiency boiler while reducing our utilities and maintenance expenses.

**Event Center High Power Lines**

**(\$ 45,000)**

2766

Description: This request is for budget to bury select high power electrical lines at the Event Center.

Justification: Labor and Industries (L&I) is requiring that we bury select high power electrical lines at the Event Center. One line runs along the Midway just to the south of he Giesy Horse Arena. Another runs from the southeast corner of the horse arena south to the E barn. These lines carry 12,500 volts and frequently come very close to vendor tents placed underneath. L&I came close to shutting down those sections of the County Fair in 2012, which would have had serious implications for us. Because lead time was so short they waived the requirement but have made it very clear that we much have those lines buried before the 2013 fair.

Outcome: This budget will enable the county to bury select high power electrical lines at the fairgrounds, improve safety and conduct a complete county fair.

**PSC/Juvenile Cooling Tower Maintenance**

**(\$ 45,000)**

2765

Description: This request is for budget to replace cooling tower "wet decks" for the Public Service Center and the Juvenile Justice Center.

Justification: The Public Service Center (PSC) and Juvenile Justice Center (JJC) cooling towers take heat from their respective buildings and reject it to the atmosphere outside the building. This is one of three major components of the buildings' cooling systems. Being a major component, it consumes a sizable amount of utilities such as electricity and water to operate. Both cooling towers have a material called a "wet deck" that transfers heat. Good heat transfer in this "wet deck" equates to good efficiency and savings on utilities. The PSC cooling tower is 12 years old and the Juvenile cooling tower is 11 years old. Normal life of the "wet deck" in a cooling tower is 10 years. Currently both cooling towers are operating at about 60% efficiency. Replacing the "wet deck" with a newer high efficiency media, replacement of the spray nozzles, and service to the water basins that are rusting out (application of a two coat epoxy) will return the coolers at 100% efficiency, save on water and electricity, and will ensure reliable cooling tower operation.

Outcome: This budget will enable the county to improve the efficiency and reliability of our PSC and JJC cooling towers.

**Public Works 149th Street Paving Project**

**(\$ 135,000)**

2769

Description: This request is for budget to re-pave the Public Works maintenance facility located on 149th Street in Brush Prairie.

Justification: Public Works makes periodic contributions to the Major Maintenance Fund to help accumulate funds for major maintenance projects. They have a 2013-2014 project scheduled to re-pave their maintenance facility located on 149th Street in Brush Prairie. This request will make their funds in the Major Maintenance account available to help fund this project.

Outcome: This budget will enable Public Works to complete their 149th Street re-paving project.

**Voicemail System Upgrade  
Carryover**

**(\$ 16,400)**

2767

Description: This request is for carryover budget for the Voicemail Upgrade project.

Justification: The Voicemail Upgrade was originally budgeted for in the 2011-2012 biennium. The amount appropriated was \$43,665. We used \$27,265 of that budget leaving \$16,400 to carryover.

Outcome: This budget will enable the county to complete its Voicemail Upgrade project.

2782

The budgeted revenue for Fund 5090-Server Equipment Repair & Replacement Fund includes revenues that are not expected to be received. This budget adjustment will reduce the 2013/14 budgeted revenue by \$358,891 and reduce budgeted expenditures by an equal amount.

2783

The County's Imaging Program is currently budgeted as part of the Information Services Department. The budget request is to move the Imaging Program revenues and expenses from Information Services to General Services which is where Records Management resides. The existing software will still be available for County departments. There is no net effect on the General Fund.

**Revise TER&R charges (Obj 958) \$87,800  
for Dept of Community Services**

2781

This budget request is to reduce Technology Equipment Repair & Replacement (TER&R) charges budgeted in the Department of Community Services (DCS). The TER&R charges are based on the number of laptops and Personal Computers owned by a department, based on annual inventories. The TER&R charges are an expense to the operating budgets and a revenue to Fund 5092-Technology Equipment Repair & Replacement Fund. The 2013/14 TER&R charges were based on inventories completed prior to a reduction in the number of DCS computers due to the creation of the Southwest Washington Behavioral Health Regional Support Network. The requested budget adjustment will reduce the budgeted TER& R charges in DCS Fund 1935-Administration/Grants Management Fund by \$87,800 with an equal reduction in Fund 5092 Technology Equipment Repair & Replacement Fund. There is no effect on the General Fund.

**Revisions to interfund transfers \$0**

2779

The 2013/14 budget includes a transfer of \$170,640 from General Fund to Fund 3194-Technology Reserve Fund for operating subsidy. There is also a transfer of \$170,640 from Fund 3194 to the General Fund for a position that had been in Fund 3194 but now is budgeted in the General Fund. The Supplemental Budget request is to eliminate both transfers, with no net effect, by eliminating the \$170,640 transfer from General Fund to Fund 3194 and eliminating the \$170,640 transfer from Fund 3194 to the General Fund. Other interfund transfer revisions are requested as well: Add \$500,000 transfer from General Fund to Fund 5090-Server Equipment Repair & Replacement Fund; delete \$500,000 transfer from General Fund to Fund 3194; Delete \$428,858 transfer from Fund 3194 to Fund 5090. These adjustments result in fewer budgeted transfers to achieve the same net effect.

**Update transfer from General Fund to Technology Reserve Fund \$0**

2778

In 2013/14, the General Fund is budgeted to transfer \$2,550,000 to Fund 3194-Technology Reserve Fund to pay for the Custody Management System implementation project. The supplemental budget request is to reduce the Custody Management transfer by \$621,688 which is the portion that was already transferred in December 2012. The total authorized amount for the Custody Management System will remain at \$2,550,000 of which \$621,688 was applied in 2011/12 and \$1,928,312 remains in 2013/14. The 2013/14 project budget in Fund 3194 will be adjusted to align with the \$1,928,312 remainder.

**Juvenile - "No Wrong Door" grant \$0**

The supplemental budget request is to recognize an unanticipated \$185,000 Juvenile Court grant from the Office of Crime Victims Advocacy. The grant revenue for 2013/14 is \$153,520 and the 2015/16 budget will recognize the remaining \$31,480. The grant requires a match of \$46,250 which will be met in the current Juvenile Court budget. Through the work of the last two years, the grant-funded 1.00 FTE Juvenile Probation Counselor position has supervised the specialized caseload, and developed services provided to youth victims of sex trafficking. In addition to recognizing the grant revenue, the supplemental budget requests that an existing Project Position (JUV0810) be converted to a new Revenue Position. If the Board of Commissioners approves, General Fund grant revenues and the 2013/14 budget for Juvenile will be increased by \$153,520, and Project Position JUV0810 will be converted to a Revenue Position that will terminate at the end of the grant. This action will increase General Fund grant revenues, increase the 2013/14 budget for Juvenile, and add one FTE.

**Juvenile Detention Alternative Initiative \$0**

For 2013/14 the Juvenile Court used a grant to pay for a Juvenile Probation Counselor for five months in 2013. As originally planned, when the grant expired the employee would move into a General Fund position (JUV0086). The grant has been extended however, and as a result, JUV0086 will remain vacant for the remainder of the biennium. This leaves approximately \$136,000 that was budgeted but will not be needed for JUV0086 in 2013/14. The supplemental budget request is to apply \$136,000 to the Juvenile Detention Alternative Initiative (JDAI) program that was launched in January 2013. If the Board of Commissioners approves, the 2013/14 budget for Juvenile will be revised to move \$136,000 appropriated for position JUV0086 to the JDAI program budget. This action will neither increase nor decrease the 2013/14 budget for Juvenile Court.

2797

In June 2012, the Board of County Commissioners approved a consent agenda staff report request for revenue and expense budget increases of \$86,642. The budget adjustments were needed to accept and spend Recreational Boating Safety grant funds in that amount. This is a Washington State Parks and Recreation Commission grant that began July 1, 2012 and expires June 30, 2013. In the first two quarters of the grant (July-December 2012), the Sheriff's Office made use of \$44,226 of the grant funds for extra river-system marine enforcement patrols, citizen boating safety education, and patrol boat equipment. The Sheriff proposes a resource-neutral adjustment of \$42,416 to the 2013-14 budget to allow the use of the remaining funds between January 1 and June 30, 2013.

2790

The Federal Bureau of Investigation has budgeted \$150,000 in funding to make improvements to the firing range, which is owned by Clark County but used in part by their agents for training and practice. The money will be provided up front and placed in a liability account from which it will be withdrawn as needed to cover capital improvement costs. A budget adjustment was authorized in 2012 with the understanding that remaining funding would be added to the 2013/14 budget via a supplemental budget adjustment. No funds were received in 2012, and therefore the Sheriff requests a resource-neutral budget adjustment for the full amount of \$150,000 for 2013/14 to accomplish the improvements. There is no net effect on the General Fund.

The State of Washington awarded the Sheriff's Office and its sub-grantees (six city police departments in the county) \$247,272 through the Sex Offender Address and Residency Verification Program over the period from July 2012 through June 2013. The Washington Association of Sheriffs and Police Chiefs (WASPC), as administrator for the state, pays these funds in four quarterly \$61,818 payments after quarterly activity reports are received. The Board of County Commissioners accepted this funding as part of the June 19, 2012 consent agenda and recognized the need for a supplemental budget adjustment at that time. The Sheriff's Office requests a supplemental revenue budget adjustment in the amount of \$123,636 for the third and fourth payments of this award covering the January – June 2013 period. An expense budget adjustment of \$63,132 is also necessary to cover the pass-throughs of reimbursements to the sub-grantees. The remainder of the expense is already authorized in the payroll budget allotment for the sex offender registration project position (CSO1009), which has an end date of December 31, 2015.

In June 2011, the Sheriff's Office applied for and received a \$93,840 award to cover expenses related to the management and coordination of a regional traffic safety task force. Funds are being used to pay the contract costs for a Target Zero manager and related task force coordination expenses. As of December 31, 2012, \$39,137 of the grant money remains unspent. The revenue budget for 2013-14 already contains \$20,607. The Sheriff requests a resource-neutral budget adjustment of \$18,530 to bring the total budget to \$39,137. The Sheriff's Office has interlocal agreements in place that require it to act as a single financial point of contact with the Portland Bureau of Emergency Management (PBEM) for all Urban Area Security Initiative (UASI) funds reimbursed to Clark County agencies. In January 2013, the Sheriff's Office, acting in this capacity for the Clark County Health Department, submitted for a \$2,046 expense reimbursement from PBEM. The Sheriff's Office will pass these funds on to Clark County Health Department once they are received. In addition, PBEM will provide an Avatar I tactical robot upgrade (\$5,240) and will fund a county emergency preparedness exercise with a budget of \$8,926 using UASI funds. These transactions will result in extra revenues and expenses amounting to \$16,212. The Vancouver Police Department (VPD) secured a grant from Washington state through WASPC to establish a regional auto theft task force for vehicle theft prevention and enforcement. VPD then entered into an interlocal agreement with the Clark County Sheriff's Office. One of the terms of this agreement is that the Sheriff's Office crime analyst will provide service on an overtime basis to be reimbursed by VPD from the grant funds. \$4,236 remains in the grant for this purpose from January 1, 2013 until the grant expiration date of June 30, 2013. The grant also includes \$8,500 in budget for the Sheriff to acquire equipment that can be used to investigate auto theft suspects. The system will also provide a variety of e-government services including the ability to apply for permits, licenses, and projects online, submit electronic plans, pay related fees, schedule inspections, check the status of cases, and other related functions. The county is also interested in a cashiering system that will consolidate the four separate systems in use by a variety of departments throughout the county.

There are three departments that primarily use the existing permit tracking system. Community Development is the largest user of the system and houses the staff that supports the permit tracking system in conjunction with Application Services. Public Works Development Engineering and Environmental Services Development Review and Environmental Permitting Programs are also major users of the system. Many other programs including the Public Health Department, Assessment and GIS, Clean Water and Community Planning use the system but in a lesser capacity.

In the past, most development review functions for the county were housed within Community Development. This has changed in the last five years, with Development Engineering moving to Public Works and the creation of a new Department of Environmental Services. Due to this circumstance, coordination between the departments is key to this project.

The county is looking to update the current system while adding web based services for customers and mobile computing solutions for staff. The desire is to allow the addition of these functions in a fully integrated single system rather than adding solutions from various vendors to the existing system.

A partnership of Community Development, Public Works' Development Engineering and Environmental Services' Development Review and Environmental Permitting Programs assists the residents of Clark County in creating, promoting, and preserving quality living standards within the region. Internally, Community Development combines the expertise of staff in seven programs that proudly work together towards its mission of safeguarding the public and building a better Clark County.

#### Required Services

Attached to this staff report are two pages taken from the RFP. These pages touch on the basic project needs, the functionality and modules, implementation/configuration/consultation, project management and support, and qualifications that the prospective vendor will offer Clark County.

#### Request

To move forward this project forward and to ultimately execute a contract with the chosen vendor, Community Development requests that the Board of County Commissioners approve a \$3.3 million budgeted expense. The budget should reside in the 3194 Technology account. In working with the Budget office and the Auditor's office, the breakdown of funding will be 50% from the General Fund and 50% from Fund 1011 and Fund 1012. A majority of the latter 50% will be funded by Fund 1011.

**Increase budget for Pleasant Valley Park Pedestrian Bridge**

**(\$ 319,553)**

2746

Pedestrian access to Pleasant Valley Park in this location is currently provided via an older wooden bridge that is both privately and county owned. The new private bridge code prompted the private property owners to ask the county to deed the public portion of the bridge to them. This would allow them to improve the bridge to private bridge standards, potentially through new development. It is currently posted for 5 tons maximum. It is in the public's interest to relinquish the county's interest in the bridge, since improving the bridge to public standards requires significant investment.

The current bridge provides pedestrian access over Salmon Creek to existing trails within Pleasant Valley Park. Upon relinquishing public interest in the bridge, pedestrians would have to cross private property to access the park and trail system.

This decision package allows for the construction of a new separate public pedestrian bridge. It will be located south of the current bridge and provide continuing public access at a cost much less than a new public bridge for both vehicles and pedestrians. Pedestrian access in this area is contemplated in the existing master plan for future improvements to Pleasant Valley Park.

This total cost of the bridge is anticipated to be \$505,000. This budget request is to bring the budget in alignment with the anticipated costs of the bridge.

In 2010, the Board of County Commissioners (BOCC) adopted the Fee Holiday waiver program as necessary to assist with Clark County's economic recovery. The program waived development fees for certain development projects. Public Works Development Engineering review and inspection fees are included in the Fee Holiday program.

Through December 31, 2012, Development Engineering's portion of waived fees was \$205,360. In FY2011/12, Development Engineering budgeted \$101,656 for the Fee Holiday transfer amount (amount included waived fees from late 2010). This amount was transferred.

The remaining balance of \$103,704 was not formally budgeted, so the 2012 year-end transfer from General Fund could not occur.

**Public Works 149th Street paving  
project**

**(\$ 340,000)**

2756

This is for asphalt repairs at the 149th Street complex. The pavement parking lot is severely distressed and failing, including asphalt cracking and rutting, potholes, and poor drainage. Drainage systems need to be installed, and the parking lot structure needs to be re-built including the gravel base and the asphalt surface.

The total cost is estimated to be \$475,000. The major maintenance fund currently has \$135,000 to offset the preliminary estimate of \$475,000. The difference remaining of \$340,000 will be paid out of the Road Fund. This estimate is based on excavation and removal of surface material to a depth of 1 foot, grading and gravel sub grade, final grading and asphalt placement at 3" depth.

**Public Works 78th Street Building D paving project (\$ 273,000)**

2757

The 78th Street Building D is estimated to cost \$273,000. This pavement parking lot is similar to the 149th St. lot, as it is severely distressed and failing, including asphalt cracking and rutting, potholes, and poor drainage. Drainage system needs to be installed here also, and the parking lot structure needs to be re-built including the gravel base and the asphalt surface.

This estimate is based on excavation and removal of surface material to a depth of 1 foot, grading and gravel sub grade, final grading and asphalt placement at 3" depth.

**Children's Justice Center budget adjustment**

**\$0**

2786

On February 21, 2013 the Board of County Commissioners authorized the Professional Service Contract between the City of Camas and the Children's Justice Center for forensic interviewing service when there is a suspicion of a child abuse crime with the Camas City jurisdiction. The City of Camas seeks to pay an hourly fee for the use of the Children's Justice Center (CJC) to hold initial interviews if a crime against a child is suspected and has occurred in Camas, which is outside of the CJC collaboration. The \$25,000 revenue from the hourly fee was not anticipated in the 2013/14 budget. The fees will offset the costs of the increased workload for cases coming from Camas.

**Pregnancy Partners Program**

**\$0**

2745

Kaiser Health System Foundation is providing \$47,500 during 2013 in support of the Pregnancy Partners program at Clark County Public Health. Pregnancy Partners will use this award to continue assisting low-income, pregnant women in navigating the Medicaid system. Facilitating access to prenatal care will improve birth outcomes for pregnant women in Clark County. In addition to providing navigation services to low-income, pregnant women, Pregnancy Partners will also continue to train Community Health Advocates and work with healthcare providers to increase access to services.

**COMMUNITY OUTREACH:**

The supplemental appropriation request was advertised during the previous two weeks.

**BUDGET AND POLICY IMPLICATIONS**

The budgets in operating and capital funds will reflect additions and deductions subsequent to the adopted 2013/2014 budget. Please see attachment A which summarizes the net budget impact.

**ACTION REQUESTED:**

Please approve the 2013 Omnibus supplemental appropriation decreasing expenditure budgets in the net amount of \$17,741,357 and decreasing revenue estimates in the net amount of \$11,041,286. Overall budgeted fund balance increase of \$6,700,071.
