#### STAFF REPORT

Public Health (CCPH)

\* 7 1 1 0 6 7 +

**DEPARTMENT:** 

Clark County Public Health (CCPH)

DATE:

November 18, 2014

**SPECIFIC REQUEST:** 

Clark County Board of Commissioners' (BOCC) approval to apply for a Home Visiting Service Account (HVSA) grant with Thrive by Five (Thrive) for 2015 funding and for future years. This is a non-competitive award of approximately \$50,000 each year. It is further requested to authorize the Public Health Director to sign this application, future years' applications, contracts, and any

amendments.

#### **BACKGROUND**

Consistent with Strategic Initiatives 2 and 3, CCPH offers the Nurse Family Partnership (NFP) program to first-time mothers throughout Clark County. NFP is an evidence-based program that improves pregnancy outcomes, child health and development, and economic self-sufficiency for the family. Research by the RAND Corporation estimates NFP returns up to \$5.70 for each \$1 spent on the program.

In 2010, the Washington State Legislature created the HVSA, which leverages state and federal home visiting funds by matching them with private investments raised by Thrive to increase the availability of high-quality, evidence-based home visiting programs. The research shows that these programs:

- enhance child development and well-being by alleviating the effects of poverty and other known risk factors on child development;
- reduce the incidence of child abuse and neglect; and,
- promote school readiness for young children and their families.

In 2014, CCPH was awarded HVSA funding by Thrive through a competitive bid process. As a result of that award and becoming an HVSA member, CCPH is able to reapply this year and in future years through a non-competitive process. The grant requires funds be used for critical sustainability and/or expansion.

CCPH is requesting funds for critical sustainability of our NFP program. These funds will allow us to provide services in areas of highest need and is one step in continued efforts to seek a variety of funding sources for NFP services throughout the county. Critical sustainability means two things:

- The NFP program holds promise for transformed lives, and for cost savings in law enforcement, child protection, and education. In order for this to happen, CCPH needs to provide NFP services to meet the needs of enough first-time mothers in Clark County to make a difference.
- 2. The NFP program in Clark County needs to have sustainable funding, ideally from a blend of funding sources.

### **COMMUNITY INVOLVEMENT**

NFP is well integrated in the community. For example, NFP staff collaborate with the school districts' teen parent programs to ensure pregnant and parenting teens graduate. Referrals to NFP come from a wide variety of sources including prenatal providers, Medicaid-managed care plans, juvenile justice, school nurses, teen parenting classes, and the Women, Infants and Children's program.

#### **HEALTH EQUITY**

NFP addresses the root causes of individual health inequity for both the first-time mother and her child by providing options for overcoming barriers that prevent optimal health. NFP helps mothers build resiliency and self-sufficiency; learn critical parenting skills such as child safety, bonding/attachment, and how to help their baby learn. The program increases healthy birth outcomes, prevents childhood abuse and neglect, and builds school readiness.

#### **ACTION REQUESTED**

- Clark County BOCC's approval to apply for a renewing grant with Thrive for 2015 funding and for future years.
- Authorize the Public Health Director to sign the applications, contracts, and any amendments.

#### **BUDGET AND POLICY IMPLICATIONS**

This funding is included in the 2015-2016 biennial budget. The funding period is January 1, 2015 through December 31, 2015 and may be renewed in subsequent years.
