BACKGROUND

Project review: The application vested on 10/28/2005. A pre-application conference was held 11/22/2005. Preliminary approval was issued on 8/30/2006. Final engineering approval was granted 2/26/2008.

Zoning: R1-6; **Lot Size:** The R1-6 zone has a minimum average lot area of 6,000 square feet and a maximum lot area of 8,500 square feet. **Actual Lot Size:** Parcels range in size from 2,670 square feet to 11,449 square feet.

The project was proposed as a Planned Unit Development (PUD) as allowed through CCC40.520.080. The PUD code ensures that minimum density for the zone is met while allowing design flexibility without the request for a variance for standards such as lot size, setbacks, landscaping, and parking. This project provided area for an 8.89 acre park tract within a BPA easement to provide active open space area in the form of pedestrian trails, picnic areas, circuit training stations and horse shoe facilities.

COMMUNITY OUTREACH

The proposed land division went through the standard land use review and approval process. Notice of application was mailed to the applicant, the neighborhood association and property owners located within 300 feet of the site on 4/28/2006. Notice of the application and hearing were posted on the site by the applicant on 6/14/2006.
