  - a. Proximity to major streets and the available capacity of these streets;
  - b. Availability of public water and sewer;
  - c. Vehicular and pedestrian traffic circulation in the area;
  - d. Proximity to commercial services; and
  - e. Proximity to public open space and recreation opportunities.

# 40.230.020 Mixed Use District (MX)

# A. Purpose.

<u>1</u>5

<u>1</u>8

The mixed use (MX) district requires mixed use developments to provide the community with a mix of mutually supporting retail, service, office and residential uses. It promotes cohesive site planning and design which integrates and interconnects two (2) or more land uses into a development that is mutually supportive. It provides incentives to develop a higher-density, active, urban environment than generally found in a suburban community, and which is further expected to:

- 1. Achieve goals and objectives of the community framework plan and the comprehensive plan;
- 2. Enhance livability, environmental quality and economic vitality;
- 3. Accommodate and respect surrounding land uses by providing a gradual transition adjacent to lower density neighborhoods that may encircle a potential mixed use site;
- 4. Maximize efficient use of public facilities and services;
- 5. Provide a variety of housing types and densities;
- 6. Reduce the number of automobile trips and encourage alternative modes of transportation; and
- 7. Create a safe, attractive and convenient environment for living, working, recreating and traveling.

### B. Applicability.

- 1. General. The provisions of this section shall be applied to parcels or groups of contiguous parcels designated mixed use on the zoning map.
- 2. Interpretation. If the requirements of the mixed use district conflict with other regulations, the more stringent of the two (2) shall apply as determined by the responsible official.

# C. Definitions.

For the purposes of this section, the following definitions shall apply:

- 1. "Mixed use development" shall mean a group of structures planned as a single entity and containing within and/or among them a variety of complementary and/or mutually supporting uses (such as housing, offices, retail, public service or entertainment).
- 2. "Developable area" means that portion of the site which is unencumbered by environmentally sensitive lands to be protected and their respective buffers, designated parks and open space, public right-of-way, and road easements.
- 3. "Building footprint" means the area contained within the exterior building walls of the ground floor of a building plus the area of any portion of upper floors that extend outside of the footprint of the ground floor.
- 4. "Cottage housing" means a collection of small single-family detached dwelling units arranged around a common open space.
- 5. "Mixed use building" means any building that combines both permitted residential and nonresidential uses.
- 6. "Net ground floor area" means nonresidential floor area and excludes parking areas.

Clark County Code Page 32 of 48

7. "Senior housing" means dwelling units specifically for occupancy by persons fifty-five (55) years of age or older.

# D. Uses.

The uses set out in Table 40.230.020-1 are permitted or conditional in the mixed use (MX) district. Residential uses are permitted so long as the minimum required densities of this section are met. The appropriate review authority is mandatory.

- "P" Uses allowed subject to approval of applicable permits.
- "R/A" Uses permitted upon review and approval as set forth in Section 40.520.020.
- "C" Conditional uses which may be permitted subject to the approval of a conditional use permit as set forth in Section 40.520.030.
- "X" Uses specifically prohibited.

### 40.230.085 Employment Districts (IL, IH, IR, BP, IL-RILB)

A. Purpose. The purpose of this section is to provide for a wide range of noncommercial economic development and employment opportunities that limit residential, institutional, commercial, office and other nonindustrial uses to those necessary for the convenience and support of such development and opportunities.

(Amended: Ord. 2016-04-03; Ord. 2018-01-09)

B. Applicability. The regulations in this section shall be applicable in the following zoning districts:

- 1. Industrial (I) Districts.
  - a. Light Industrial District (IL). The light industrial district is intended to provide for those lessintensive industrial uses which produce little noise, odor and pollution. It also provides for resource-based uses and service uses that are deemed compatible with light industrial uses.
  - b. Business Park (BP) District. The Business Park district provides for the development of uses including limited light manufacturing and wholesale trade, light warehousing, business and professional services, research, business, and corporate offices, and other similar compatible or supporting enterprises not oriented to the general public.
  - c. Railroad Industrial District (IR). The railroad industrial district is intended to provide for those industrial uses that are most suited for and can take advantage of locations along the county's rail line
  - d. Light Industrial Rural Industrial Land Bank (IL-RILB) Overlay. The light industrial rural industrial land bank district overlay (IL-RILB) is applied in conjunction with the IL base zone. This overlay is intended to provide for industrial and manufacturing businesses which provide a variety of employment uses which produce little noise, odor and pollution. Development standards are intended to promote sustainable development by minimizing environmental impacts, protecting natural resources, reducing waste, promoting compatibility with the surrounding land uses, avoiding urban growth in areas designated for long-term rural or resource-based activity, and creating long-term value for both the community and the industrial users.
- 2. Heavy Industrial District (IH). The heavy industrial district is intended to preserve, enhance and create areas containing industrial and manufacturing activities which are potentially incompatible with most other uses.

(Amended: Ord. 2016-04-03; Ord. 2018-01-09)

- C. Uses. The uses set out in Table 40.230.085-1 are examples of uses allowable in the Industrial and Business Park zoning districts.
  - "P" Uses allowed subject to approval of applicable permits.
  - "C" Conditional uses which may be permitted, subject to the approval of a conditional use permit as set forth in Section 40.520.030.
  - "X" Uses specifically prohibited.

The list of uses is based on the 2012 North American Industrial Classification System (NAICS), http://www.naics.com/search.htm. NAICS is organized in a hierarchical structure as follows:

- Sector (two (2) digit);
- Subsector (three (3) digit);
- Industry groups (four (4) digit); and
- Industry (five (5) digit).

In Table 40.230.085-1, each line is intended to include all lower divisions within it. If a specific industry group or industry is separately called out on its own line in the table under a subsector, it is to be separately regulated, but all other industry groups or industry under a subsector not listed will be regulated the same as the subsector. Where no industry group or industry is separately called out, the use category is intended to apply generally to uses within the subsector.

Clark County Code Page **40** of **48** 

The use categories apply to the industry sector of the user and are not intended to be applied individually to floor areas within each use category.

## 40.250.110 Urban Holding Overlay (UH-10, UH-20)

## A. Purpose.

The urban holding overlay is used to protect areas from premature land division and development that would preclude efficient transition to urban development or large-scale industrial development.

 The Urban Holding-10 overlay (UH-10) may be applied to protect certain lands identified within urban growth areas from premature development when public policy establishes urbanization criteria such as requiring annexation prior to development. The Urban Holding-10 district is also appropriate where public facilities are inadequate to support development under the urban zoning designation.

The Urban Holding-20 overlay (UH-20) has the same purpose as UH-10 except that the area is
intended to be developed for industrial or office type nonresidential uses and retention in larger
lots will ensure the site is adequate in size to accommodate large industrial or office
developments.

(Amended: Ord. 2018-01-09)

#### B. Uses.

The uses set out in Table 40.250.110-1 are examples of uses allowable in various areas under the urban holding overlay. The appropriate review authority is mandatory.

- "P" Permitted uses.
- "R/A" Uses permitted upon review and approval as set forth in Section 40.520.020.
- "C" Conditional uses which may be permitted subject to the approval of a conditional use permit as set forth in Section 40.520.030 and the additional conditional use criteria herein:
- 1. Permanent structures or facilities shall be designed and located to provide for the orderly extension of public roads, water and sewer to the site and surrounding properties.
- 2. All urban road, drainage and other urban development requirements shall apply to ensure that future urban development will occur in an orderly manner.
- 3. The property owner shall submit with the conditional use application a signed agreement(s) between the property owner and the service provider(s) that obliges the property owner to connect to public sewer and water when each becomes available within three hundred (300) feet of the site. The agreements must be consistent with Section 40.370.010.
- "X" Uses specifically prohibited.

Where there are special use standards or restrictions for a listed use, the applicable code section(s) in Chapter 40.260, Special Uses and Standards, or other applicable chapter is noted in the "Special Standards" column.
