

ORDINANCE NO.

AN ORDINANCE amending Clark County Code Chapter 12.04, creating a new section defining all-terrain vehicles and allowing the operation of wheeled all-terrain vehicles on county roads with posted speed limits of 35 miles per hour or less.

WHEREAS, the Washington State legislature passed Engrossed Substitute House Bill (ESHB) 1632 in 2013, amending RCW Chapter 46.09 Off-Road, Non-highway, and Wheeled All-Terrain Vehicles (WATVs) to allow, among other things, counties to regulate the operation of non-highway vehicles on streets, roads, or highways; and

WHEREAS, pursuant to RCW Chapter 46.09.310(19), WATVs are described and classified as non-highway vehicles; and

WHEREAS, RCW Chapter 46.09.455 sets forth prohibited and authorized uses of WATVs that include the authorization of operation of WATVs on any public roadway of the state having a speed limit of thirty-five (35) miles per hour (MPH) or less subject to restrictions and requirements; and

WHEREAS, RCW Chapter 46.09.455(1)(c)(i) requires counties with a population of fifteen thousand or more, who desire to allow operation of WATVs on county roadways, to approve an ordinance that designates public roadways within county boundaries for said usage, not including non-highway roads and trails; and

WHEREAS, RCW 46.09.455(1)(c)(iii) requires counties with a population of fifteen thousand or more to list publicly and make accessible from the main page of the county website any public roadways, not including non-highway roads and trails, that are authorized for use by WATVs; and

WHEREAS, the County Council desires to restrict WATV operation on county roads only to persons possessing a valid license to operate a motor vehicle under Chapter 46.20 RCW; and

WHEREAS, the County Council finds that allowing WATVs, as described in Chapter 46.09 RCW, promotes increased opportunities for tourism by providing a variety of outdoor recreation activities in the county; and

WHEREAS, the County Council is considering this matter at a duly-advertised public hearing and concludes that adoption will further the public health, safety, and welfare; now, therefore:
