

Recreational Water Safety Facility Remodel Review Application

All remodels of existing recreational water facilities including the structure of the pool/spa or adjacent buildings are subject to review by the Clark County Health Department. The level of review varies based on the complexity of the remodel. Please note that remodel reviews are not required for routine maintenance such as fixing gate hinges or resurfacing, however the facility is responsible for ensuring compliance with WAC 246-260.

Fill out the following form to begin the process. An Environmental Health Specialist will contact you within 10 business days after your inquiry has been submitted to discuss the project and determine what level of review will be required. This form may be submitted electronically to the DLCntyHealthWaterRec@clark.wa.gov or by mail at P.O box 9825 Vancouver, WA 98666-8825
