Chronic Disease in the Clackamas County Medicaid Population

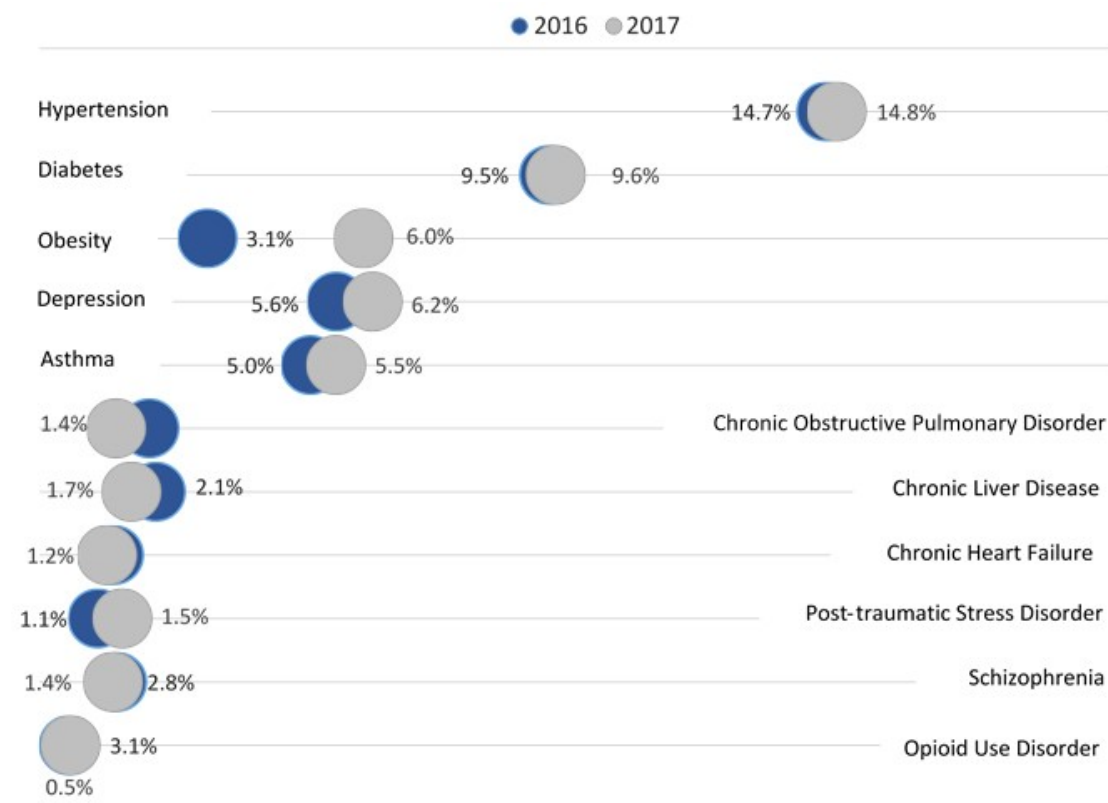

Medicaid is the second largest source of health insurance in the United States after employer-provided insurance and historically has covered low-income children and parents, pregnant women, and people with disabilities.¹

In Clackamas County, Medicaid beneficiaries are covered through Health Share of Oregon. To identify the prevalence of chronic conditions in the region’s Medicare population, Health Share of Oregon provided member utilization data from 2016 and 2017.

Asian

Between 2016 and 2017, the prevalence of **obesity had the greatest increase** for Asian Health Share of Oregon members in Clackamas County (Figure G.2-2).²

Figure G.2- 2. Health Share of Oregon 2016 and 2017: Asian.

Note: 2016 N = 1,548; 2017 N = 1,455.
