1300 Franklin St., Suite 185
Vancouver, WA 98660

Dear Hunter,

This is to inform you that the Washington Tree Farm Program recently received the recertification papers for your Tree Farm Number **WA-4482, WA-4455. WA-4455.01, WA-4455.02, WA-4455.03, WA-4455.04**. The American Tree Farm System's Washington Tree Farm Committee congratulates you for your continuing efforts at good land stewardship and thanks you for your years of responsible forest management.

The Tree Farm sign, which you are entitled to display, signifies that your land is being managed to the standards of forest management set forth by the American Tree Farm System and state sponsors of the program. These standards help the public understand and support tree farmers in Washington.

If you need additional signs, or have any questions about the program, please contact the Washington Tree Farm Program office at the above address. There are several different sign types, so please specify whether you prefer aluminum or plastic, and either the "Certified Tree Farm" or the "Certified Family Forest" logo.

Sincerely,

Elizabeth Ide
WTFP Administrator
