

Heritage Farm Master Plan Update

Refreshing the Farm's future plans

Wednesday, April 10, 2019

Adopted Master Plan

Adopted in 2010, the master plan proposed allocations for future spaces and uses.

The update process will:

- Review changes-to-date
- Review, validate or revise plan elements within guiding principles
- Review farm priorities

Guiding Principles for Master Plan

- Celebrate our agricultural heritage
- Maintain WSU's presence through programs, research & office facilities
- Showcase & promote sustainable agricultural & building practices
- Support agricultural research that supports sustainable farming practices
- Enhance community wellness & inspire life-long learning
- Promote community volunteerism
- Integrate a variety of activities & resources that provide community access

Guidance from County Council

- Major capital improvements will require outside funding
- Move Heritage Farm towards financial self-sufficiency
- Do not reconstruct the silo

Changes Since 2010 Master Plan

- Boundary line adjustment for Hazel Dell Park
- New parking lot constructed west of Admin building.
- New greenhouse constructed
- Living farm constructed elsewhere
- Cemetery boundary delineated
- Farm placed on Washington Historic Register, National Register of Historic Places & Clark County Historic Register
- Interpretive Trail Plan completed 2011
- Preservation and Maintenance Plan completed in 2018
- (Bud Van Cleve Community Room reducing need for community space.)

Current Farm Land Uses

Farm land is currently used by:

- WSU Extension
- Clark County Food Bank
- Master Gardeners
- Partners in Careers
- Community Gardeners
- PacNW Queen Bee Rearing Club
- Clark College

Interpret the Farm's Unique History

Interpretive Trail Plan – 2011

- Provides content for interpretive signs and proposed locations along the trail
- Helps commemorate Clark County's agricultural heritage

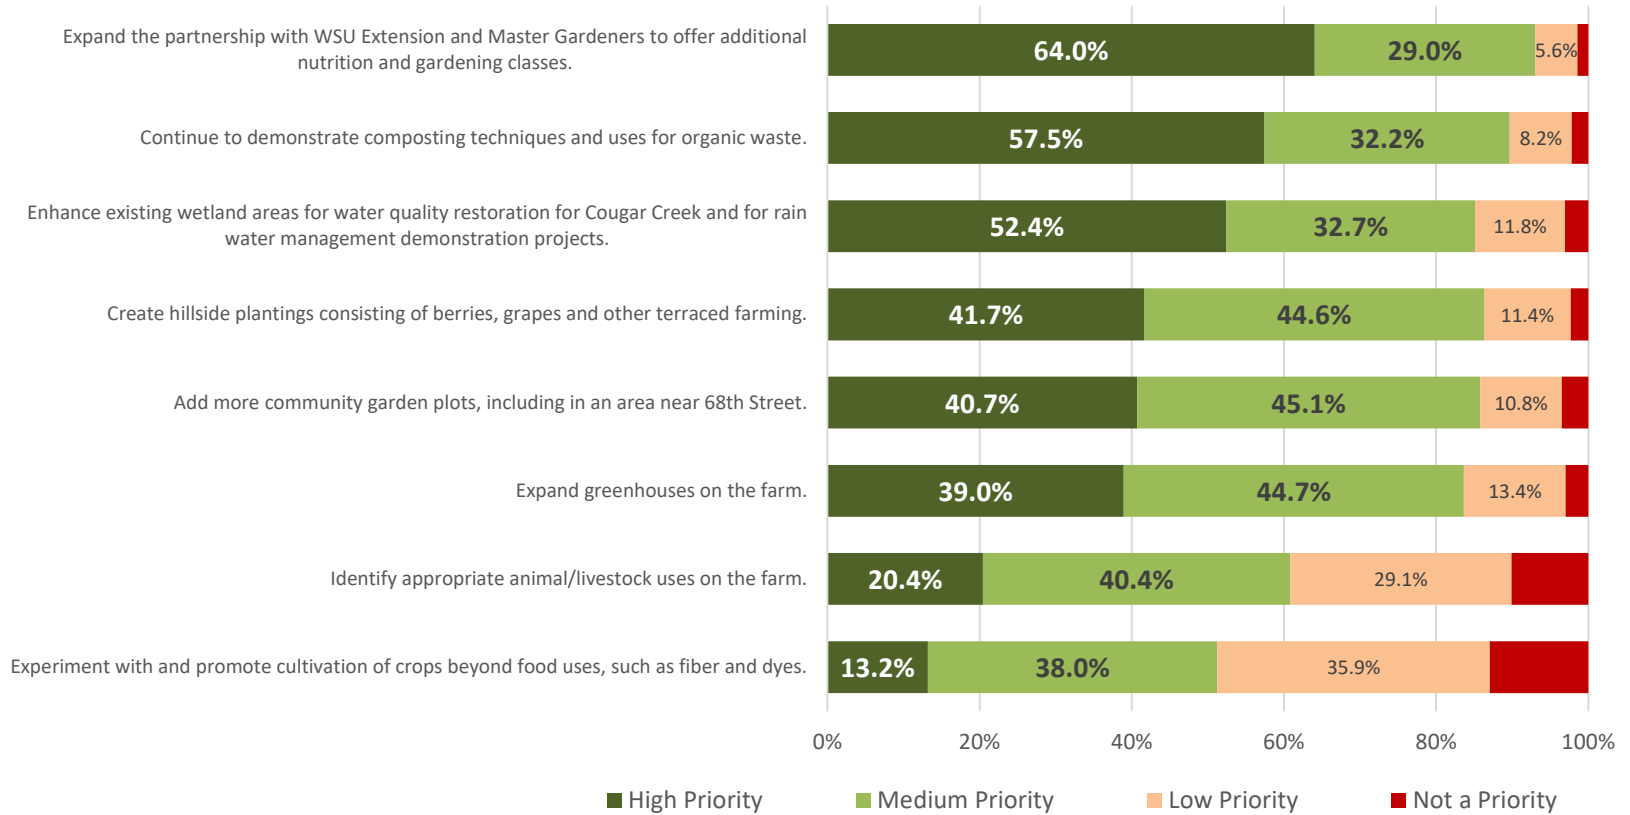

Preserve the Farm's Unique History

Preservation & Maintenance Plan completed in August 2018

- Identifies which historic structures should be preserved, adapted for re-use, etc.

Survey of Farm & Garden Priorities

93% prioritized more WSU Extension & Master gardener programs

Survey of Business Development Ideas

82% prioritized establishing a farmer's market on the Farm

Survey of Educational Priorities

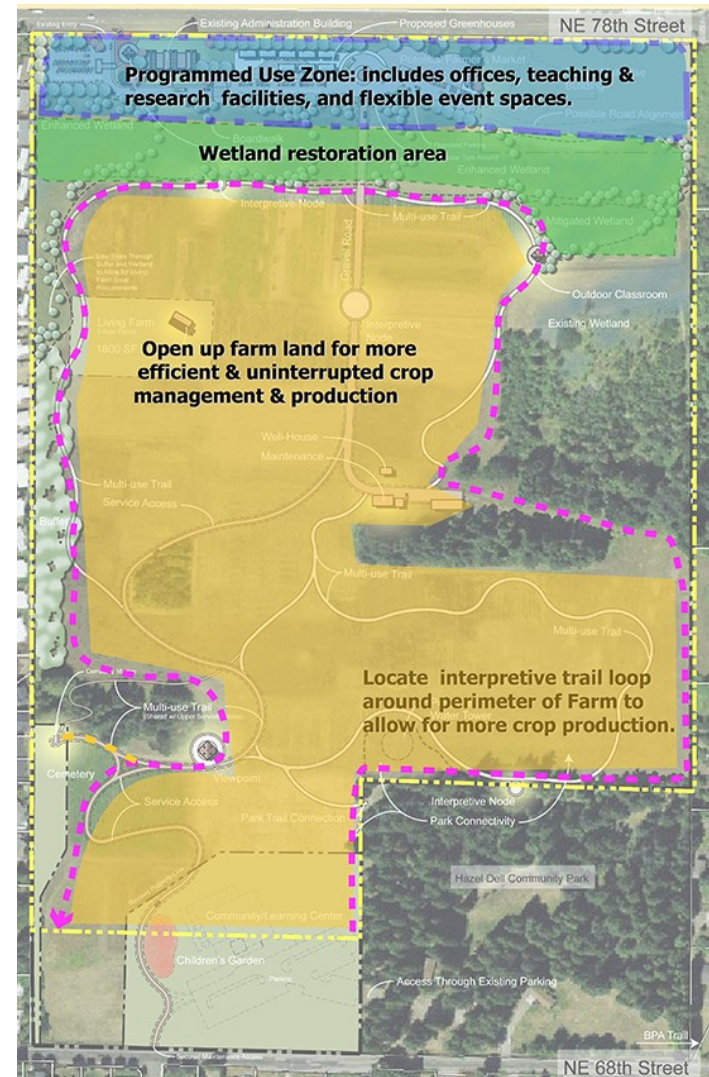

91% prioritized farming education programming

Proposed Master Plan Update

The master plan update acknowledges recent changes and directs future improvements for the historic farm.

Proposed Master Plan Update

The master plan update acknowledges recent changes and directs future improvements for the historic farm.

North Section - Enlarged

The Farm's infrastructure is concentrated in the northern portion along 78th Street. Potential infrastructure expansion is driven by demand and fiscal support for capital improvements. Wetlands are restored for enhanced water quality value. Connections provide access to the perimeter public trail loop.

Maintain and expand agricultural uses

- **Continue & increase agriculture & horticulture programs**
- **Provide space for potential infrastructure to support farm produce marketing, harvest events, etc.**
- **Expand greenhouses as demand increases**
- **Provide more community garden plots**

Improve water quality – Restore the wetlands

- **Create a wider natural wetland buffer**
- **Actively convert land cover to native wetland landscape**
- **Interpret the value of wetlands and their relationship to water quality.**
- **Install boardwalk across restored wetlands for access and interpretation**

Walking the historic farm

Loop trail will connect the farm to the neighboring community and encourage healthy physical activity.

The interpretive signs along the trail will help connect the visitor to the County's agricultural heritage.

A Phased Approach

- **Farm capital improvements will require outside funding**
- **Some improvements may be subsidized or supported by grants, gifts and sponsorships**
- **Potential users and their available resources may drive the timing and implementation of phased improvements**
- **A future master plan for Hazel Dell Park would help identify best connections to the Farm and 68th Street.**

Thank you!
