

Determination of NONSIGNIFICANCE

Notice Date: July 23, 2020

**PROJECT:  
Whipple Creek Place Stormwater Facility Repair  
CRP No. 405365**

---

Please find enclosed an environmental Determination of Non Significance (DNS) issued pursuant to State Environmental Policy Act (SEPA) Rules (Chapter 197-11, Washington Administrative Code). The enclosed review comments reflect evaluation of the environmental checklist by the lead agency as required by WAS 197-11-330(1)(a)(i).

Written comments may be submitted on this determination within fifteen (15) days of its issuance, after which the DNS will be reconsidered in light of the comments received.

Determination of NONSIGNIFICANCE

Notice Date: July 23, 2020

**DETERMINATION OF NON-SIGNIFICANCE**

**Description of Proposal:** The project will stabilize and repair erosion from a failing stormwater facility at Whipple Creek Place development. The overflow caused erosion on the northwest side of the facility. A new outfall pipe will be constructed near the existing bioswale. The pipe will be continuous and below grade, running from the existing outfall through new manhole structures connecting the new pipeline to existing retention pond storm pipes. The riprap will armor outfall to prevent scour. Native vegetation will be planted on site to offset construction impacts.

**Proponent:** Clark County

**Location of proposal, including street address, if any:**

Northwest 152nd Street and Northwest 6th Avenue  
Township 03N Range 01E NW ¼ Section 22 (Figure 1, Project Location, and Figure 2, Study Area included at end of checklist)

**Lead Agency:** Department of Public Works, Clark County, Washington

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

The lead agency has determined that the requirements for environmental analysis, protection, and mitigation measures have been adequately addressed in the development regulations and comprehensive plan adopted under chapter 36.70A RCW, and in other applicable local, state, or federal laws or rules, as provided by RCW 43.21C.240 and WAC 197-11-158. Our agency will not require any additional mitigation measures under SEPA.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 15 days from the date below.

Comments must be submitted by **August 7, 2020**
