

How to get set up in FieldScope

Clark County Student Watershed Monitoring Network – online FieldScope Database

<http://clarkcountyswmn.fieldscope.org/>

1

The screenshot shows the homepage of the Clark County Student Watershed Monitoring Network. At the top right, there is a "Login" button. Below the navigation bar, the main content area includes a "Welcome" message, a "What would you like to do?" section with buttons for "MAP DATA", "ENTER DATA", "GRAPH DATA", and "HELP", and two sidebars: "Upcoming Events" and "Project News".

- Callout 1:** Points to the "Login" button with the text: "New and returning users, start here".
- Callout 2:** Points to the "Upcoming Events" sidebar with the text: "Here we will post upcoming events, such as training, Student Congress, milestones".
- Callout 3:** Points to the "Project News" sidebar with the text: "Project updates and key information will be posted here".

2

The screenshot shows the "Log In to FieldScope" modal window overlaid on the homepage. The modal contains fields for "Email Address" and "Password", along with a "Log In" button and a "Continue Without Logging In" button. There are also links for "New To FieldScope? Click Here to Register." and "Forgot Your Password? Click Here to Recover".

- Callout 4:** Points to the "New To FieldScope? Click Here to Register." link with the text: "New users, start here!".
- Callout 5:** Points to the "Log In" button with the text: "If you have already registered, enter your information here".

3

New users, fill in all nine (9) fields

Make sure to use the scroll bar to move down to see remaining fields

Click the verification box and complete the set of questions

Click the register box

4

OK....we'll get an email at the County and will activate your account.

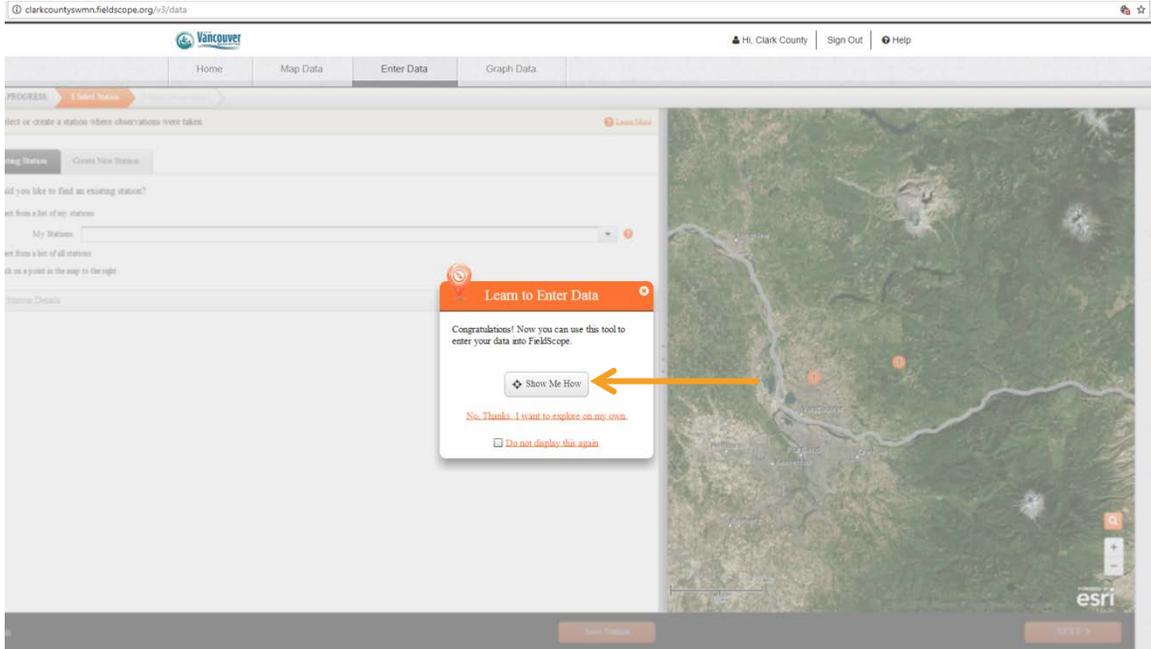

5

Notice that you are now logged in. Click here to log out when done. Need to login again, you'll check in here.

Ready to get started? Start by entering data here.

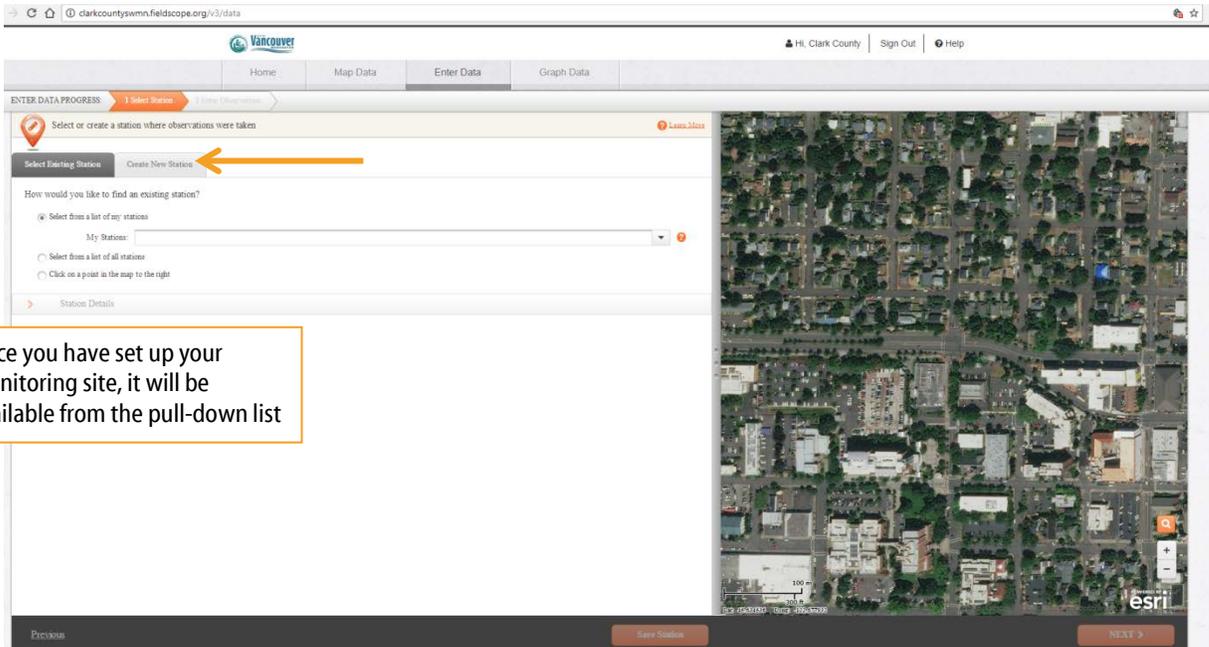

6

Feel free to watch the tutorial video from BSCS, makers of FieldScope

7

Select your monitoring site – Create New Station

Once you have set up your monitoring site, it will be available from the pull-down list
