Learn about Advance Care Planning

Advance care planning is not just about getting older. At any age, a medical crisis could leave you too ill to make your own healthcare decisions. Even if you are not sick now, planning for health care in the future is an important step to insure you receive the medical care you would want, if you are unable to speak for yourself and others are making the decisions for you.

Members of PeaceHealth's Palliative Care program, Daleasha Hall, Melissa Ensey and April Duff will discuss the importance of advocating for yourself and the resources available to assist you in making a plan for your future healthcare needs.
