

DENTISTS SERVING PREGNANT WOMEN WITH MEDICAID

Good oral health habits are important throughout your life and during pregnancy.

Please be reassured that prevention, diagnosis, and treatment of oral conditions, including dental X-rays (with shielding of the abdomen and thyroid) and local anesthesia (lidocaine with or without epinephrine), are safe during pregnancy.

Continue with regular dental care appointments and utilize your coverage with the state medical card.

Los buenos hábitos de salud dental son importantes durante su vida y su embarazo. Confíe en que la prevención, el diagnóstico y el tratamiento, incluyendo radiografías (cubriendo el abdomen y la tiroides) y anestesia local (lidocaína con o sin epinefrina) son seguros durante el embarazo.

Continúe con citas regulares al dentista y utilice la cobertura de su tarjeta médica.

For additional information, refer to Oral Health During Pregnancy: A National Consensus Statement, by the Health Resources and Services Administration's Maternal and Child Health Bureau in collaboration with the American College of Obstetricians and Gynecologists and the American Dental Association.

MEDICAL INTERPRETATION AND TRANSPORTATION

Medical interpretation and transportation are covered services for Apple Health insured children once a dental appointment has been made.

Ask your dental clinic to schedule a medical interpreter.

For transportation, please connect in advance:

Hablo Español

This is not a complete list of dental providers accepting Medicaid. Inclusion on this list does not imply approval nor does omission imply disapproval. Dental access information frequently changes. Note the published date. If older than six months, call to request an updated resource list.

This list does not encompass all the dentists who accept Apple Health. Dental clinics being featured in this handout neither ensure nor rule out the availability of dental services.
