Safe Medication Return

For more info about the Washington Safe Medication Return Program or to locate a disposal site near you:
medtakebackwashington.org | 1-844-4-TAKEBACK (1-844-482-5322) | bit.ly/DEATake-Back

SAFELY STORING AND DISPOSING OF MEDICATIONS BENEFITS EVERYONE'S HEALTH AND WELL-BEING.

Storing medicine in a locked location and proper disposal are the most effective deterrents to accidental poisonings, overdose, medicine theft, and misuse that can lead to prescription drug addiction. Stay informed and talk with loved ones about the risks for ingesting or taking medicine not prescribed for them and benefits of safeguarding your medications. Follow these healthful tips to keep your medicines safe and loved ones free from harm.

SAFE MEDICINE STORAGE TIPS

- At home and on-the-go, store medicine safely in a locked location away from people and pets. Learn more at LocksSaveLives.org.
- Resist the urge to keep medicine handy by returning it to a locked location after each use.
- Use child-resistant caps and close the caps tightly after each use.
- Don't share prescription medication with others as it's illegal and may cause them harm.
- Keep inventory of medicines to know how many pills are left and if any are missing.

***Washington Poison Center 800-222-1222**

PROPER MEDICINE DISPOSAL TIPS

- Dispose of all unused and expired medicine immediately and properly.
- Do not place medicine in the trash or recycling, and never flush it down the toilet or drain as it pollutes the environment and waterways or could be misused by someone for whom it wasn't prescribed.
- Properly dispose of expired and unwanted medicine by dropping it off at a drug take-back event, a year-round disposal site, or dispose of it by mail. Learn more at, medtakebackwashington.org or bit.ly/DEATake-Back.
