Dear Washington State Broadband Office,

The Clark County Council is writing to you today in support of Comcast/Xfinity as an active and contributing community member who has been a collaborative partner with Clark County to address broadband challenges for our community.

Comcast/Xfinity's commitment to expanding high-quality broadband access aligns closely with our mission to enhance digital equity and connectivity for unserved and underserved communities according to the WSBO and included in the WA State NTIA Volume 1 WA approved plan.

Through their active involvement, Comcast/Xfinity has demonstrated a clear understanding of broadband needs in our community and a commitment to leveraging resources effectively to meet those needs. Clark County supports Comcast's application as part of the county's desire to ensure equitable access to reliable internet for eligible residents and businesses Broadband Serviceable Locations (BSLs) in the Project Area.

Clark County values the partnership and collaboration Comcast/Xfinity brings to our shared work. We are confident that their proposed project will significantly contribute to the goals of the BEAD program and help advance digital equity across our community.

Sincerely,

Sue Marshall
