

# Learn-to-Swim Lesson Providers in Clark County

Did you know drowning is the leading cause of death for children ages 1-4 years, and the second leading cause of death for ages 5-14 years?

Most of these deaths occur in private swimming pools or hot tubs. Learning to swim – in addition to appropriate barriers and supervision – is one of the best ways to prevent accidental drowning. Check out the table below for information about learn-to-swim lesson providers in Clark County.
